---

- Program Manual
  - 1. Login
  - 2. Register
  - 3. After Login
    - 3.1. Personal Collection and All Albums
      - 3.1.1. Album Detail
      - 3.1.2. Search
      - 3.1.3. Remove Album
    - 3.2. Upload New Album
    - 3.3. Settings and Notifications
    - 3.4. Logout

## 1. Login

---

After the program starts up:

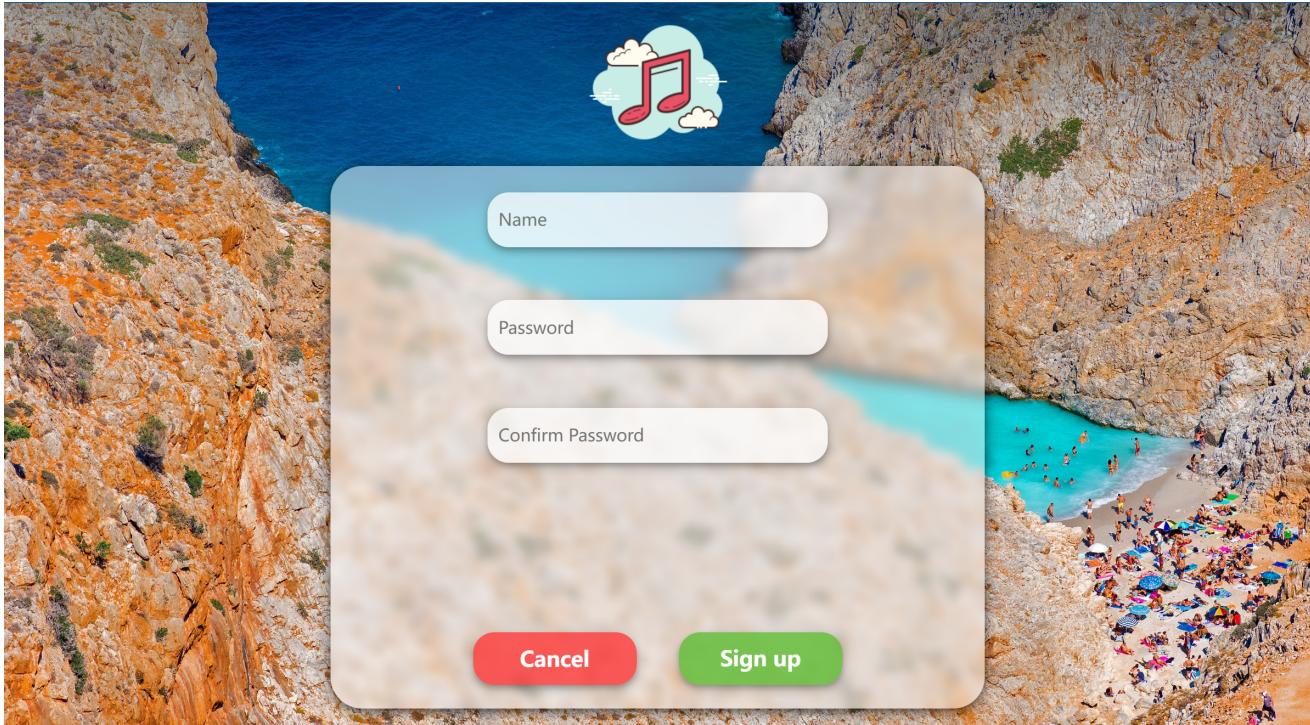

### Note

The background image is loaded from Internet. If you encounter the problem of missing background, check if you've got an Internet connection.

## 2. Register

Click on the **Sign up** button in the Login window:

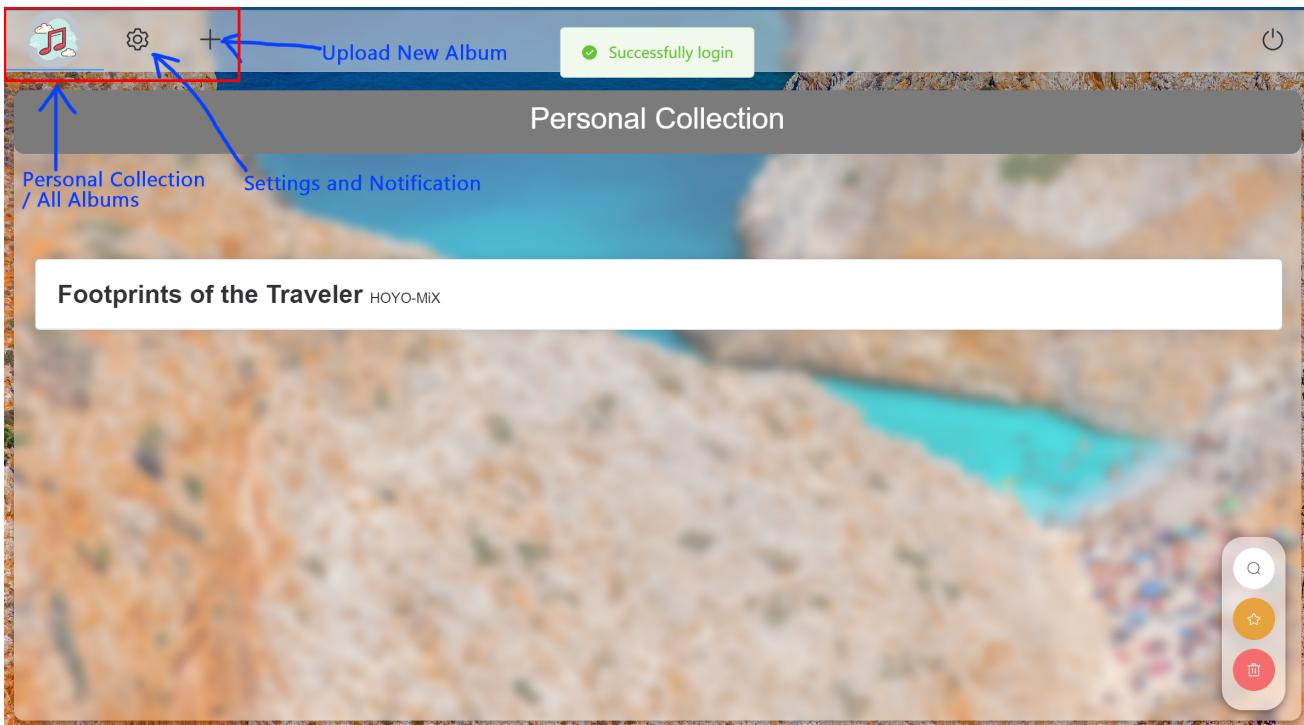

Click **Cancel** to return to the Login window.

## 3. After Login

Enter the correct user name and password to login.

There're three tabs in general:

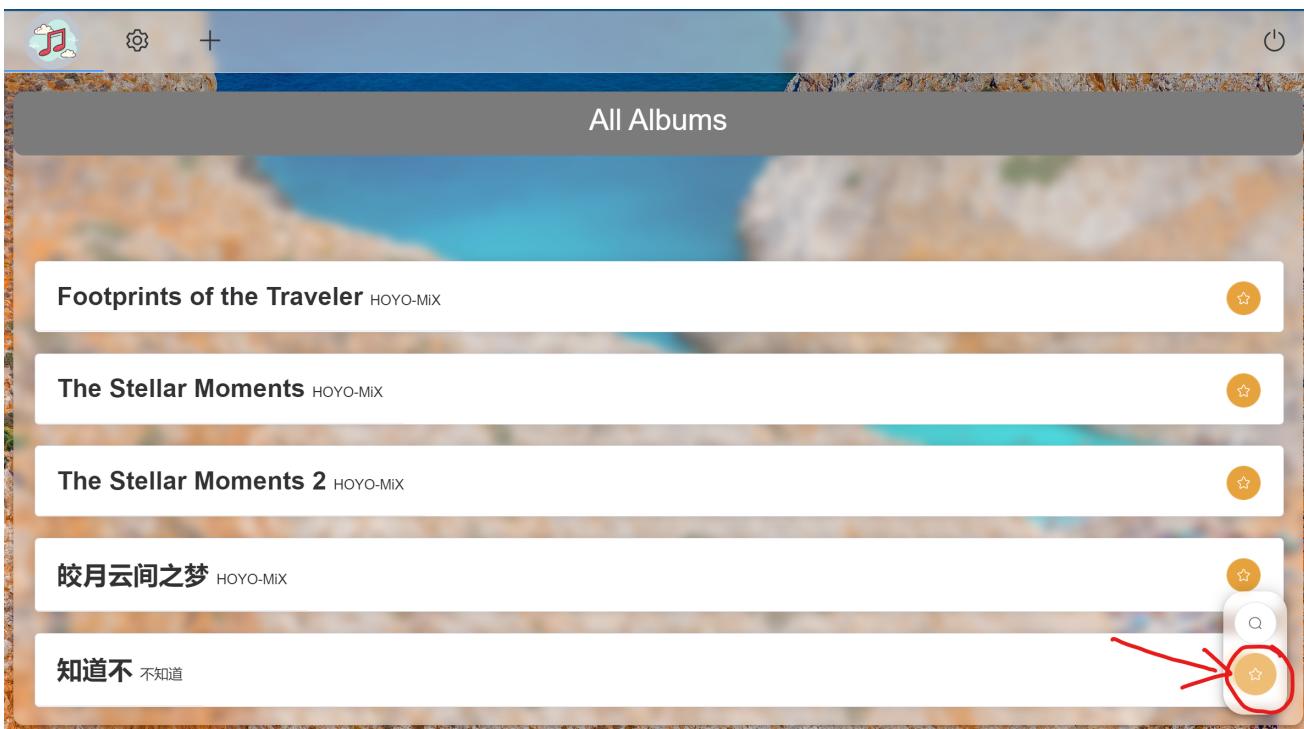

- **Personal Collection and All Albums**
- **Settings and Notifications**
- **Upload New Album**

Clicking on each tab button will lead to its interface.

### 3.1. Personal Collection and All Albums

By default, it shows "*Personal Collection*". To switch between "*All Albums*" and "*Personal Collection*", press the yellow button at bottom right:

#### 3.1.1. Album Detail

In both cases, when clicking on the album, it will show the album's detail, including:

- **tracks**

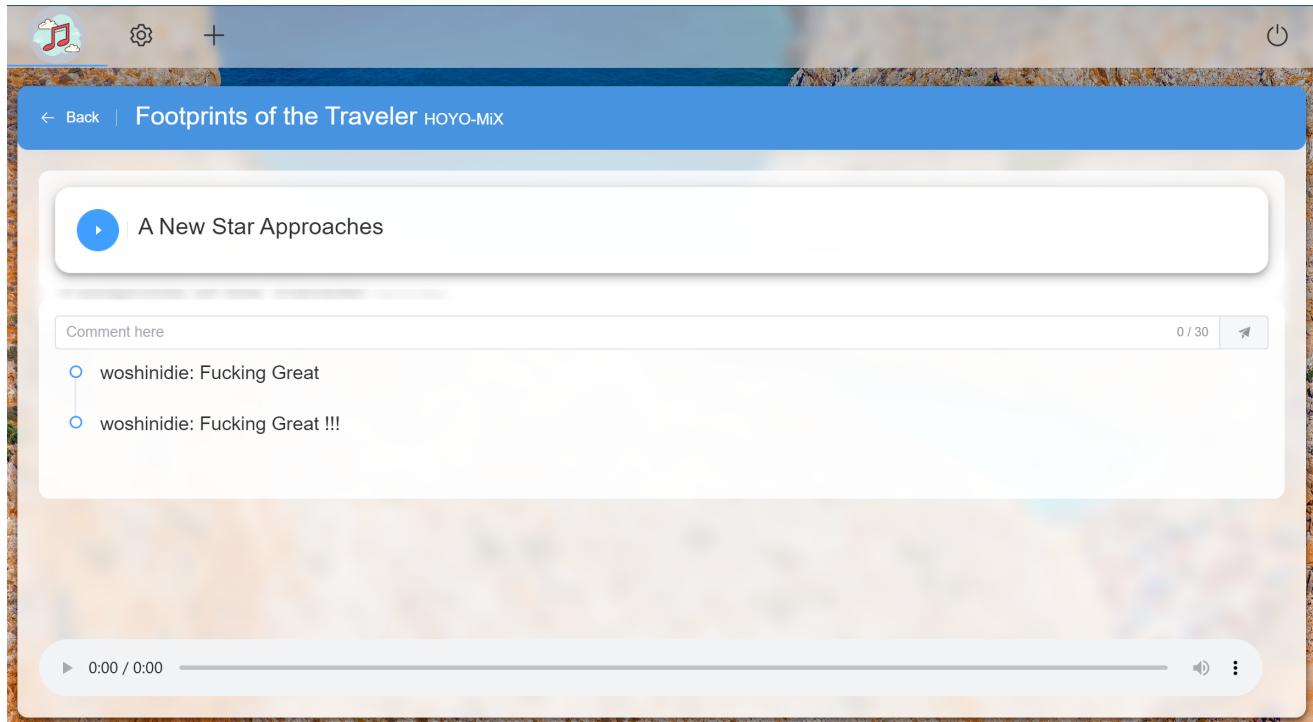

Each track has a blue **play button** at its left.

- **comments**

You can send your comment about the album here, and see comments from other users

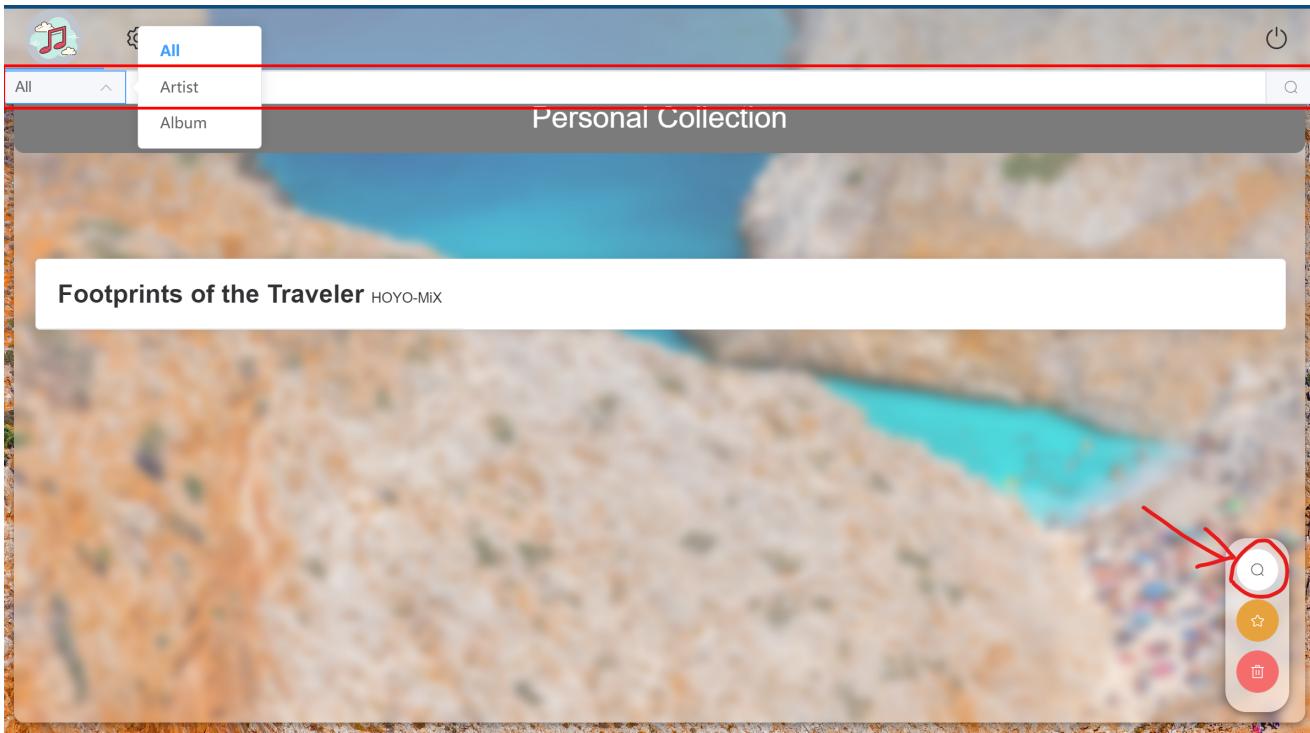

- **audio controller**

You can control the music volume, progress, start/pause, play back speed here

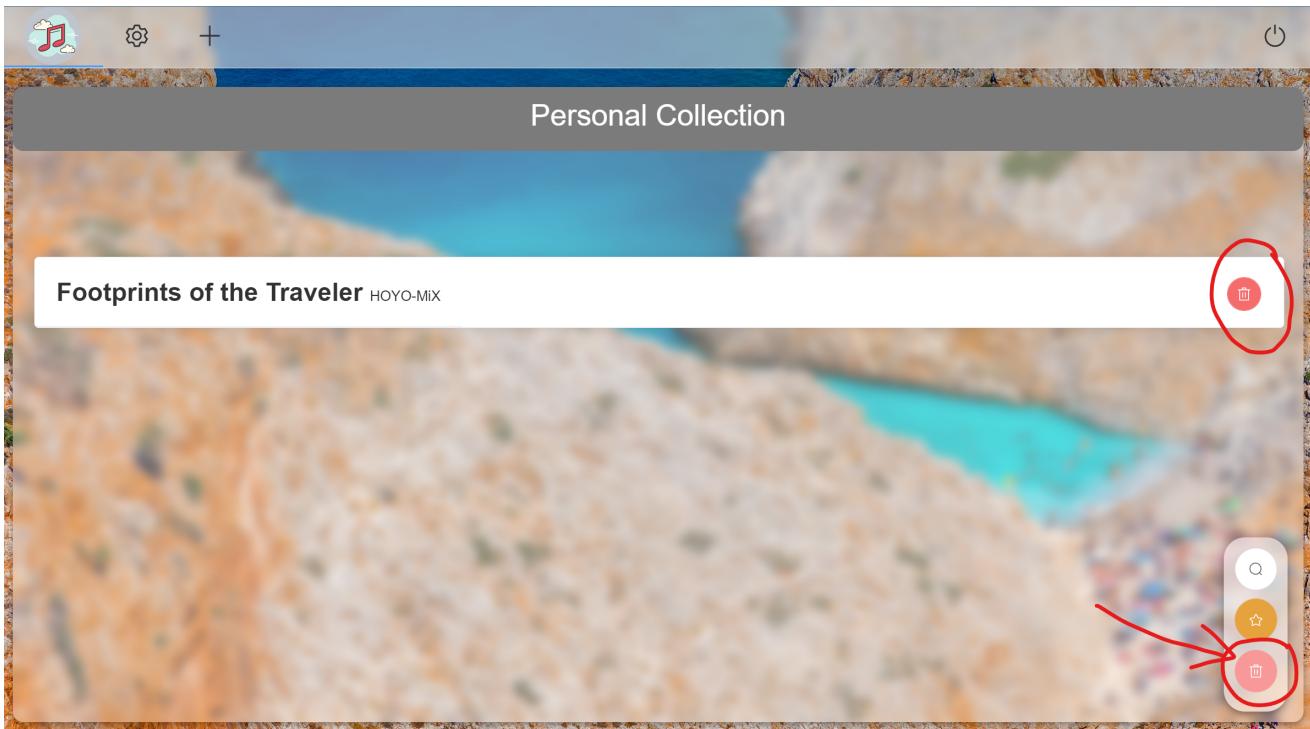

### 3.1.2. Search

To search for an artist/album in both personal collection or all albums, press on the **grey search button** at bottom right corner, then the search bar will pop up on top:

### 3.1.3. Remove Album

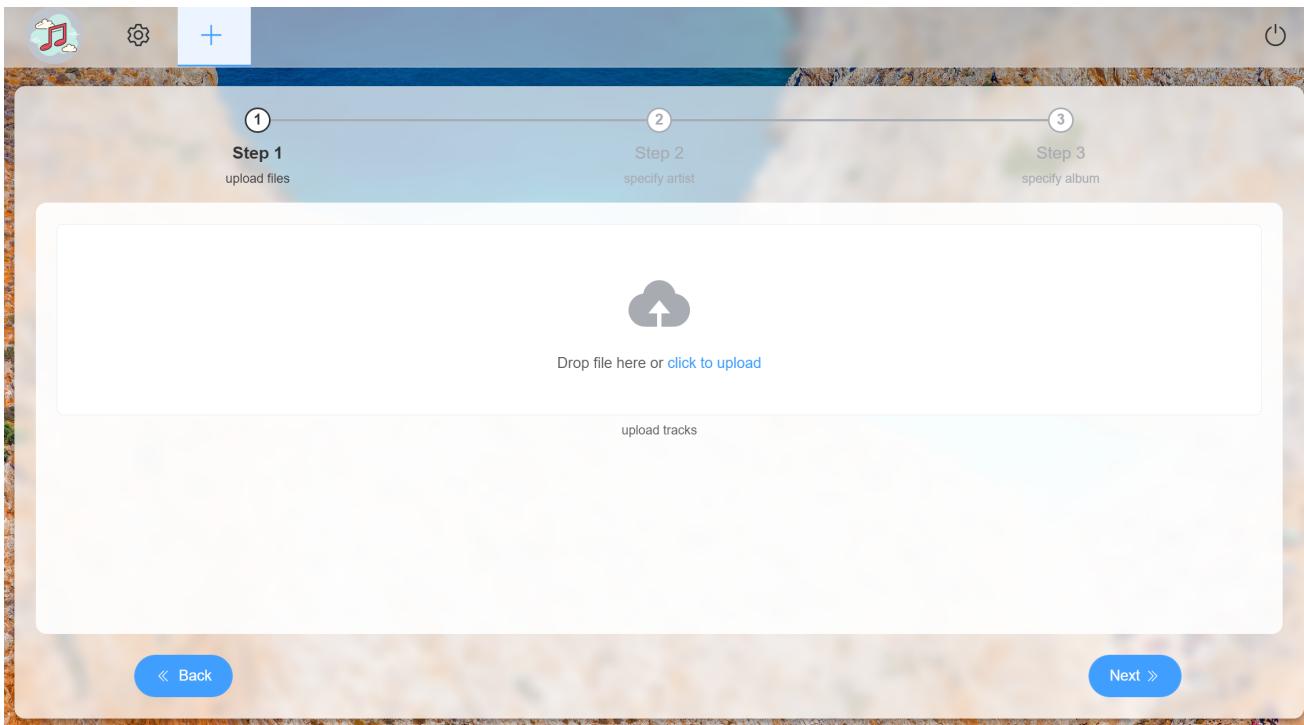

To remove album from "*Personal Collection*", click on the **red delete button** at bottom right corner, then each album will show an delete button:

Only administrator can remove album from "*All Albums*".

## 3.2. Upload New Album

Three step's instruction can be seen in this tab:

- **upload files**

upload the tracks in the same album you want to upload

- **specify artist**

enter artist's name of the album

- **specify album**

enter album's name

Use **Back** and **Next** to navigate between three steps

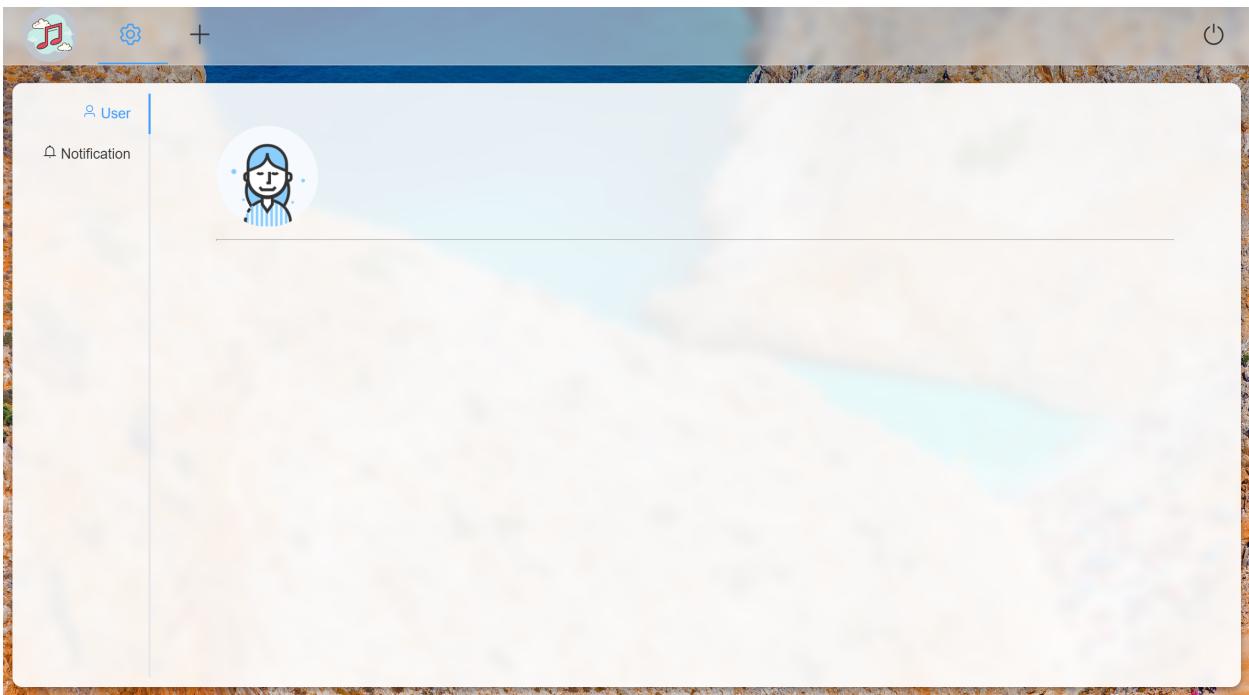

Common users' uploaded albums need to be reviewed by administrator in order to be formally added to the database's "*All Albums*", while administrator itself need not.

### 3.3. Settings and Notifications

There're two sub tabs:

- **User**

If the login user is administrator, its name will be shown here

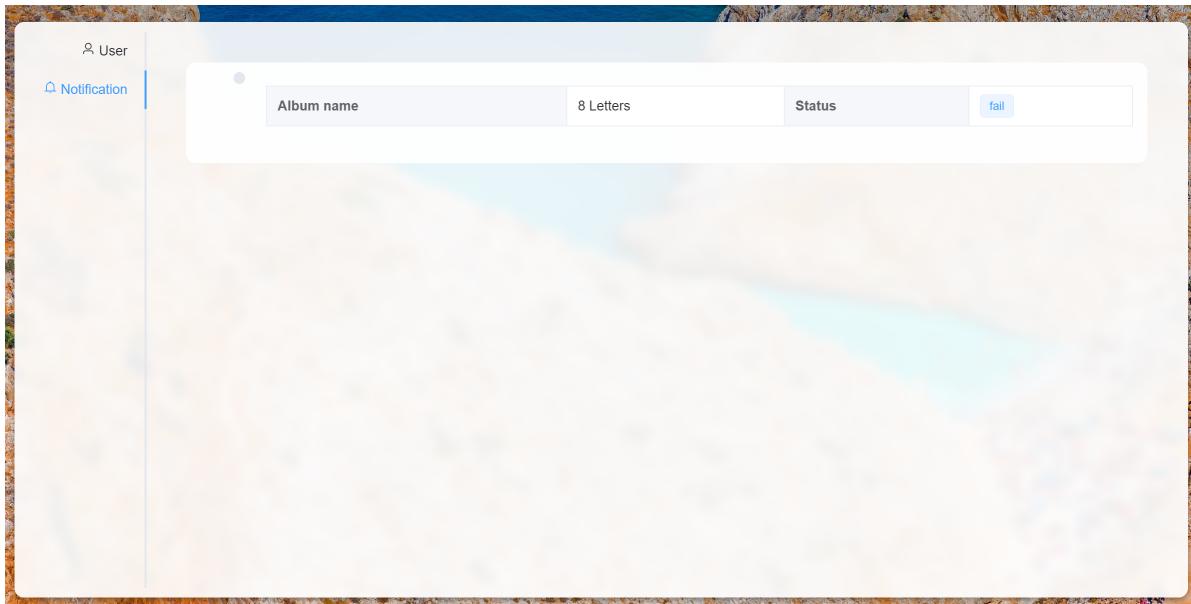

- **Notification**

Different users will see different kind of notification here

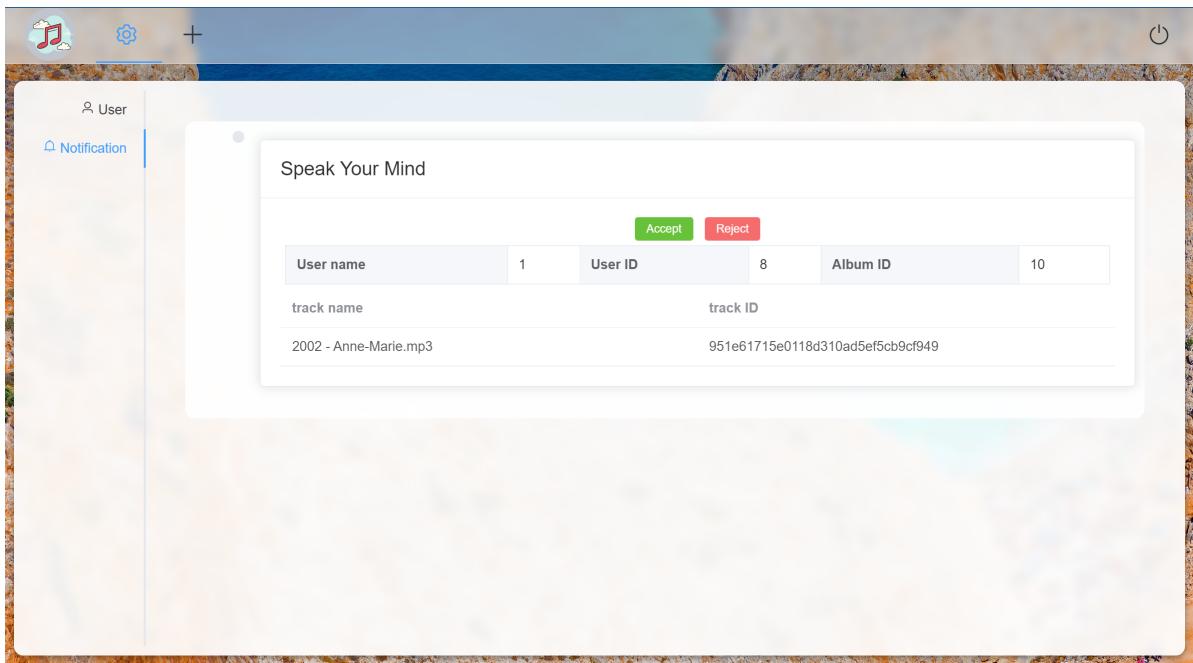

- **Common Users**

For common users, they can check the status of the albums they have tried to uploaded, whether they are **accepted or rejected** by the administrator:

- **Administrator**

If there's an new upload request from common users, administrator can choose whether to accept/reject the request here:

### 3.4. Logout

To logout from current user, simply press the logout button at top right:
